**UNCOVER
COVID**

OUR MISSION

As the novel coronavirus pandemic reared its ugly head in late 2019, all signs pointed to an unprecedented road ahead. With the upcoming general election front and center, legacy media distorted and censored every word President Trump said as he swiftly endeavored to address the American people with hope and optimism. Nevertheless, discussions on social media platforms and mainstream, left-leaning news networks immediately centered around masks, social distancing, school closures, pending lockdowns, upcoming sickness and death, and voter safety during the pandemic. The journalists at UncoverDC realized immediately that there was a gaping hole left where the truth was residing, and the team got to work.

A small handful of government scientists, led by Dr. Anthony Fauci, declared to the masses that SARS-CoV-2 presented an urgent threat to humanity categorically different from any health emergency in recent memory. With the threat of looming catastrophe and little knowledge of what to expect, the United States and governments around the world quickly imposed draconian COVID-19 restrictions that devastated economies and locked terrified citizens from all walks of life behind closed doors as a restricted form of life continued online. Meanwhile, COVID-19 vaccine development launched at warp speed with the promise it would lead humankind outside.

As the November 3 election approached, a COVID-19 vaccine was not yet available. The final election results amplified the frustration felt by Americans desperate for a way out of the pandemic nightmare. From day one, UncoverDC has taken very seriously its responsibility to serve the public with honesty in journalism while digging behind the narrative to report past the agenda of fear. Our passionate and dedicated team has gone to great lengths to shed light on relevant and crucial COVID-19 issues and concerns not reported elsewhere in today's news. Whether taking readers on a deep dive into the backstory on the dark motives potentially driving the pandemic or bringing forward alternative and lifesaving methods to approach COVID-19, UncoverDC is profoundly loyal to the United States of America and remains deeply rooted in its core mission of delivering the unbiased truth.

We hope that this presentation of our journalism will be a beacon for those desperate for answers and understanding. Informed citizenry make informed decisions, and we have held this as our beacon from our inception. Please share our reporting with your friends and family who may benefit. Please distribute this to your neighbors. Throughout the propaganda, the truth is all that will set us free.

ORIGINS AND POLITICS OF COVID

The origins of and politics behind COVID pose questions that to this day remain largely unanswered. Unwilling to give up, a select few patriots boldly speak for the masses and remain steadfast in their pursuit of answers. The devastation alone caused by the pandemic is reason enough to keep asking tough questions. The world at large deserves to know if gain-of-function research at the Wuhan lab in China, funded by the National Institute of Allergy and Infectious Diseases (NAIAD) under the leadership of Dr. Anthony Fauci, led to the creation of SARS-CoV-2.

At the onset of the pandemic, UncoverDC was questioning the timeline of COVID-19. As heavily redacted information from critical players during the pandemic trickled in after being requested, a handful of GOP leaders, including Rand Paul, Jim Jordan, and Matt Gaetz, continued to press Dr. Fauci, FBI Director Chris Wray, and others in the Biden admin. for the full release of correspondence related to COVID-19. Additionally, they seek answers to what extent Fauci coordinated with social media platforms like Facebook to censor information presented to the American people.

This section goes in-depth, explaining data reported by UncoverDC at the start of the pandemic that presents the potential for COVID-like illness as early as November 9, 2019. In addition to featuring the GOP's pursuit of information the American people deserve to know, it also explores the inevitable questions surrounding the frenzy of emails and subsequent private teleconference between Dr. Fauci and eleven world leaders around gain-of-function research, the origins of SARS-CoV-2, and the COVID narrative ultimately presented to the world.

MATT GAETZ GRILLS FBI DIRECTOR WRAY ON COVID-19 ORIGINS - UncoverDC (6/11/2021)

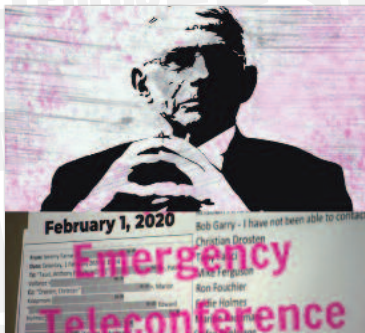

On Thursday, Congressman Matt Gaetz grilled FBI Director Chris Wray on whether the FBI engaged in a cover-up related to the origins of the coronavirus, and specifically the FBI's handling of whistleblower Dr. Li-Meng Yan.

RAND PAUL : FAUCI 'CAN'T ESCAPE' NIH FUNDING OF WUHAN LAB -

UncoverDC (5/17/2021)

Rand Paul questioned Anthony Fauci in a May 11th Senate Hearing on the efforts to fight the COVID-19 Pandemic. “Dr. Fauci, do you still support funding of the NIH funding of the lab in Wuhan?” he asked, to which Fauci replied, “Senator Paul, with all due respect, you are entirely, entirely, and completely incorrect... the NIH has not ever and does not now fund gain of function research in the Wuhan Institute of Virology.”

FAUCI'S EMERGENCY TELECONFERENCE : THE PLAYERS -

UncoverDC (July 14, 2021)

On Feb. 1, 2020, in a frenzy of emails, Dr. Fauci and 11 international virologists planned a private teleconference to discuss SARS-CoV-2.

REPUBLICANS REQUEST COVID-19 DOCUMENTS FROM ZUCKERBERG -

UncoverDC (6/10/2021)

Prompted by the revelation that Dr. Anthony Fauci—the nation's leading infectious disease expert, communicated with Facebook during the height of the coronavirus pandemic while the country was on lockdown, two top Republicans on the House Judiciary and Oversight Committees are demanding more information about the social media oligarchs role in “censoring” content about the pandemic, including the origins of COVID-19.

COULD CDC DATA PROVE COVID-19 INFECTIONS IN NOVEMBER 2019

UncoverDC (4/5/2020)

The flu season began extremely early in 2019. Or did it? An analysis of CDC data shows there is a dramatic uptick in “Influenza like Illness” or ILI beginning the week of November 9, and rapidly intensifying across key southern states, and one outlier - Washington.

ORIGINS AND POLITICS OF COVID

WHY ITALY? - UncoverDC (3/20/2020)

If one positive thing can come of the Wuhan corona-virus, maybe it will be that the world will finally open its eyes to just how sinister China has been over the past few decades, slithering in to our households, seemingly unbeknownst to us, and co-opting even our most basic necessities. Time will tell, but one thing is clear- it appears that "Why Italy?" is more nefarious than anyone could have initially thought.

THE ENEMY OF AMERICA - UncoverDC (3/17/2020)

With over 6,000 deaths worldwide, the Corona-virus has killed exactly 69 Americans as I write this. Fearmongers stoked a national panic early into this when they tossed around figures of between 480,000-1,000,000 Americans dying of this new strain of virus.

THE LEFT'S SCORCHED-EARTH WAR ON TRUMP -

UncoverDC (3/24/2020)

It's curious that the virus, emerging from China's Wuhan province, was allowed to spread, even though their government knew about it. But I'm sure the Chinese government

didn't complain when the protests evaporated almost overnight and the streets of Hong Kong were empty.

COVID-19: EMERGENCY USE AUTHORIZATION -

UncoverDC (8/11/2021)

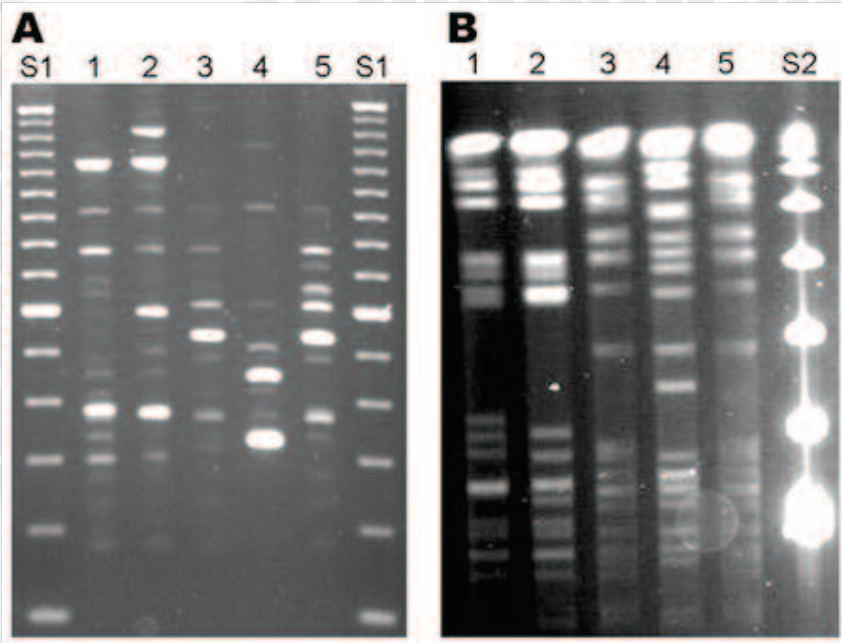

The current Emergency Use Authorizations (EUAs) for the experimental COVID-19 "vaccines" raises concerns over the authority of government and scientists in times of crisis.

PCR TESTING | CDC DATA | GENERAL REPORTING

The Polymerase Chain Reaction (PCR) test may well be the most poorly understood component of the COVID-19 saga. UncoverDC was way ahead of the curve with Celia Farber's April 7, 2020 article on the test, its origins, and purpose. The story and the information in it are still accurate and informative to this day.

The PCR test represents a masterful command of the art of moving goalposts. A dizzying and capriciously changing set of parameters pertaining to cycle-thresholds seemed to ensure that COVID would magically appear or disappear depending on which way the political and moneyed interests were blowing. A test that was never developed to detect illness in a patient was now the gold standard that would dictate the diagnosis and reporting of illness. That information would then dictate policy, the ability to see loved ones, whether a business or school stayed open and more.

In this section, the reader will see how the PCR test was an integral soldier in the army of misinformation surrounding COVID-19.

WAS THE COVID-19 TEST MEANT TO DETECT A VIRUS? - UncoverDC (4/7/2020)

The Corona Simulation Machine: Why the Inventor of The “Corona Test” Would Have Warned Us Not To Use It To Detect A Virus “Scientists are doing an awful lot of damage to the world in the name of helping it. I don't mind attacking my own fraternity because I am ashamed of it.” --Kary Mullis, Inventor of Polymerase Chain Reaction.

COVID-19 PCR TEST: KNOWLEDGE SUPPRESSED - UncoverDC (5/31/2021)

For over a year, Americans have been subjected to dizzying whiplash over the many contradictions of the COVID-19 ‘pandemic’. There have been dizzying flip-flops on almost everything related to it. Masks or no masks? 3 feet or 6? Therapeutics or vaccines? Asymptomatic spread or not. COVID death or motorcycle accident death? Almost zero attention is given to cost-benefit analysis when making so many impactful decisions. Fifteen days to flatten the curve became draconian lockdowns, causing still untold economic, psychological, and human costs. This was an illness that was handled differently, in nearly every way, by our government, the media, and the medical community, with the possible costs still unknown.

EXCLUSIVE: ND WHISTLEBLOWER EXPOSES SIGNIFICANT COVID TESTING PROBLEMS -

UncoverDC (6/5/2021)

A whistleblower from North Dakota contacted UncoverDC in response to an article we

published on Memorial Day about the devastating effects of governmental policies—including the alarming suppression of knowledge, including information related both to SARS-CoV-2 and PCR threshold cycles.

CDC REVOKES EUA ON PCR: DISCONTINUES USE IN DECEMBER -

UncoverDC (7/28/2021)

CDC revokes emergency use authorization (EUA) and discontinues use of PCR test in December 2021 asking for FDA approved pooled testing.

CDC RELEASES NEW DATA; 6% OF TOTAL DEATHS ARE FROM CORONAVIRUS ONLY -

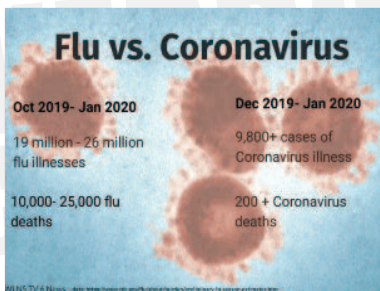

UncoverDC (8/31/2020)

The Centers for Disease Control and Prevention (CDC) updated their website last week and disclosed out of the 161,392 deaths in the CDC database, just six percent (6%), about 9,700 deaths, were attributed to the coronavirus alone. According to the CDC, the other 94 percent had an average of 2.6 additional conditions or causes of deaths, such as heart disease, diabetes, and sepsis.

HAVE 400,000 AMERICANS DIED OF COVID-19? - UncoverDC (1/25/2021)

Many assumed, lots screamed it, but now there is proof: The COVID-19 death count is a fabrication. However, the story is much bigger than number manipulation within our government. It's a story told best with an introduction. For those who may be impatient, scroll down to the section titled "The Natural Enemy of the PSYOP is the True Scientist" and read from there. Otherwise, learn what they have done and will continue to do. Learn about the PSYOP.

W.H.O REVISES COVID-19 INFECTION FATALITY RATE DOWN TO LEVELS OF SEASONAL FLU -

UncoverDC (10/13/2020)

A new round of statistics for COVID-19 was released by the World Health Organisation (WHO), on Monday, vastly revising their initial figures on the global virus. In early March they stated that the infection fatality rate (IFR) for COVID-19 was 3.4%. Now, head of the WHO's health emergencies programme, Dr. Mike Ryan, said to a special session of the WHO's 34-member executive board in Geneva, "our best estimate" is that 10 percent of the world has been infected with the virus around 750 million people – and roughly 1 million people have died.

CDC CHANGES WILL RESULT IN FEWER BREAKTHROUGH CASE REPORTS - UncoverDC (5/17/2021)

The Centers for Disease Control and Prevention (CDC) has changed rules for counting post-vaccine COVID infections and has now lowered the testing threshold for PCR tests. For those who are documented as having already received a vaccine, only hospitalization or death will trigger a case record.

TEN FATAL ERRORS: SCIENTISTS
ATTACK PAPER THAT
ESTABLISHED GLOBAL PCR
DRIVEN LOCKDOWN -

UncoverDC (12/3/2020)

The paper "Detection of 2019 novel coronavirus (2019-nCoV) by real-time PCR" was published 24 hours after it was submitted to Eurosurveillance, clearly evading peer review. Its lead authors were Christian Drosten & Victor Corman, which is how it took on the title "Corman-Drosten paper." It provided the "recipe," or work flow for the COVID-19 diagnostic test, quickly applied all over the world, after it was accepted as the standard of testing by the WHO.

IS COVID-19 REALLY
10 TIMES MORE
DEADLY THAN
THE FLU? -

UncoverDC (11/25/2020)

In March, Anthony Fauci told members of Congress that COVID-19 was "10 times more deadly" than seasonal flu. While I'm not prepared to call BS

on the Great and Powerful Fauci, I do question this statement. At the very least, I think a fairer analysis would place the relative health risks of the two viruses in a context that's significantly less frightening.

COULD CDC DATA PROVE COVID-19 INFECTIONS IN NOVEMBER 2019? - UncoverDC (4/5/2020)
CDC Data supports theory of much earlier COVID infection than has been reported.

THE CHINESE THREAT, WITH A STAR TREK CHASER - UncoverDC (6/17/2020)
In recent weeks, a combination of the virus-related economic shutdown and the Antifa/BLM rioting has shifted our focus away from the strategic threat that is Communist China. This is just what the Chicoms want, as they are concerned about growing calls for indemnification as a result of the economic damage wrought by the Chicom virus to the economies of many countries around the world.

DECENTRALIZATION AND THE REOPENING - UncoverDC (5/9/2020)
One of the first tasks of the Trump administration's COVID-19 task force led by the vice-President, and sub-unit supply chain team led by Rear Adm. John Polowczyk and Jared Kushner, was delivering supplies across the country. They aimed to procure supplies of ventilators, test kits, and PPE (protective personal equipment) then distribute the goods directly, allocate them through the federal share of purchases or simply turn contracts over to states.

NEW JERSEY GYM OWNERS ARRESTED AFTER REFUSING TO CLOSE BUSINESS - UncoverDC (7/27/2020)
On Monday, the owners of Atilis Gym, in Bellmawr, New Jersey were arrested after not complying with Governor Phil Murphy's executive order to remain closed because of COVID-19. A state judge ruled on Friday that New Jersey authorities could shutter and shut down Atilis Gym. Frank Trumbetti, 51, and Ian Smith, 33, were each charged with one count of fourth-degree contempt, one count of obstruction and one count of violation of a disaster control act.

COVID-19 POSES VIRTUALLY NO HEALTH RISK TO ATHLETES - UncoverDC (7/31/2020)

For millions of Americans, the public response to COVID-19 won't deliver a psychological body blow until - or if - college football is canceled. Increasingly, this looks like a real possibility, especially after the news that 18 Florida Marlins baseball players "tested positive for COVID-19."

BACK TO SCHOOL PART II: THE PERPETUALLY CLOSED SCHOOLS -

UncoverDC (7/23/2020)

Across the nation, as March drifted into July, the question on people's minds became less about whether or not the economy would open and more about whether or not

schools would open. Because to some degree, for many people, it is impossible to go back to work without open schools. The issue has become even more difficult because children are the least likely group to contract the China Virus. Their teachers, on the other hand, are not so immune.

COVID-19: IS A REAL SEARCH FOR THE TRUTH NOW TABOO? -

UncoverDC (7/13/2020)

Are public health officials telling the truth when they state they are seeking information about possible early cases of COVID-19? Similarly, is it possible some members of the "watchdog" press are unwilling to publish any story that presents compelling evidence the novel coronavirus was spreading in America in November or December?

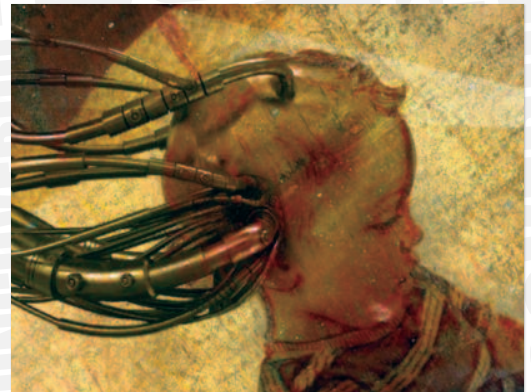

SELLING FEAR - UncoverDC (7/14/2020)

This is what is in play during the Chicom virus crisis. It is all about obtaining political power, not the health, welfare, and safety of the American people.

PARENTS IN CONNECTICUT WANT TO CALL THE SHOTS - UncoverDC (5/11/2021)
Parents in CT want to call the shots as they fight for reform of HB6423 that obliterates the state's religious exemption for vaccines.

SCHOOL DAZE - UncoverDC (9/16/2020)
I'm both a teacher and a parent of a student. I can say with authority that distance learning and the in-school New Normal are beyond bad. They are society-killing, man-made disasters.

EYE ON POLITICS: CHINA VIRUS CHERNOBYL -

UncoverDC (10/2/2020)
It was probably inevitable, given how many hands he shakes and how many events he attends, that President Trump (and the First Lady, Melania) now have come in contact with someone who tested positive for the China Virus.

DOJ SEEKS DATA FROM FOUR STATES THAT ISSUED COVID-19 ORDERS FOR NURSING HOME DEATHS -

UncoverDC (8/28/2020)
The Department of Justice issued a press release announcing the data requests from Governors of States that issued COVID-19 orders that may have resulted in deaths of elderly nursing home residents.

ELECTION LAWSUIT: PLAINTIFFS SAY THEY ARE AFRAID TO VOTE, WHILE POSTING ACTIVISM ON SOCIAL MEDIA -

UncoverDC (8/12/2020)

The Plaintiffs in the lawsuit allege that they are all undergoing very strict self-quarantine, and are fearful of leaving the house, however, a detailed review of their social media accounts tells a much different story and raises the possibility that the Plaintiffs perjured themselves during depositions given in the case, and also in the complaint.

PRESIDENT TRUMP SIGNS FOUR EXECUTIVE ORDERS EXTENDING EMERGENCY ASSISTANCE TO AMERICANS -

UncoverDC (8/10/2020)

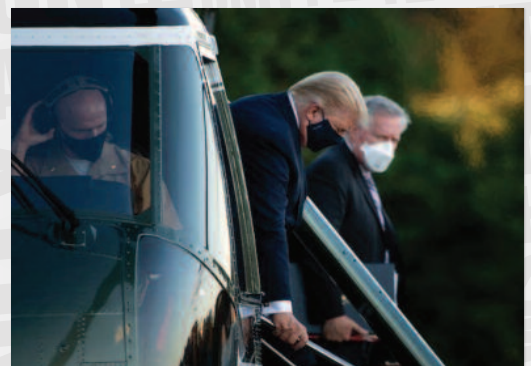

Trump provides expanded unemployment benefits, protecting families from eviction and providing relief. Democrats refused to negotiate.

AN OPEN LETTER TO PRESIDENT TRUMP -

UncoverDC (9/14/2020)

Currently, if someone contracts COVID that person has between a 97% and 99.85% chance of recovery. And yet, despite a steadily declining death rate nationwide, the medical establishment continues to act as if contracting COVID is a death sentence.

COVID CHAOS - UncoverDC (10/5/2020)

With President Trump's hospitalization due to the China Virus, along with virtually his entire top echelon of advisors who tested positive (sans Mike Pence), Democrats see an opportunity to kill two birds with one stone, metaphorically speaking.

THE END OF COVID HYSTERIA - UncoverDC (10/7/2020)

Most of the nation was stunned by the news that Donald and Melania Trump had contracted COVID. I found out early morning the next day. Already the Democrat/media complex was gleefully hoping for death, reportedly focusing on Trump's "cavalier attitude". As the center-right media began to report the left's response, the obvious was clear. Few on the right would have reacted that way had Biden contracted it. Recognized by a few heavies in the leftist echo chamber, Twitter actually began taking these ugly rants down.

Michigan Governor Gretchen Whitmer announced last week that the state's restaurants and bars could resume indoor dining on February 1.

MASKS

Masks and their efficacy in the prevention of disease have been a contentious issue; one that has divided many a community. When “15 days to slow the spread” was coined and implemented in early spring of 2020, most Americans were happy to comply with wearing a mask. The early days of the pandemic were uncertain and scary for many. Masks seemed like a good way to help your fellow man.

However, it soon became abundantly clear that the 15 days were never a serious proposition. Months and months passed, and the world became weary of the many measures that seemingly controlled almost every aspect of human interaction. The implementation of masks were no different. To this day there is disagreement on their usefulness.

Masks rapidly became another universe of shifting goalposts, with even those in the NIH and CDC issuing confusing and often contradictory guidance on their use and efficacy. UncoverDC has drilled down on all aspects of the mask and its use. Articles on studies, mandates, the psychological effects of masking on human beings, the politics of masks, and often the nonsensical tyranny of masks are all written here.

Sylvia:

Masks are really for infection control, not for preventing infection to people who are not infected rather than for preventing infection. The typical mask you buy in the drug store is not designed to pass through the material. It's designed to catch droplets if someone coughs or sneezes, particularly since you are going to be in close contact with people. I recommend that you wear a mask, particularly since you are going to be in close contact with people. Your instincts are correct, money is best spent on medical countermeasures and vaccines.

BIG PHARMA

Throughout history, when humans have gotten sick, they have relied on their intricately designed immune system and often medicine in one form or another to make them well. Since the outset of the COVID-19 pandemic, dire predictions of widespread and devastating illness along with the death of millions dominated the news. Immediately, the nation (and world) was on lockdown, and global economies came to a screeching halt.

With alternative treatment options profoundly censored, the message to the masses was a vaccine against COVID-19 was the only sure way "back to normal." With unprecedented funding and cooperation from government agencies like the National Institute of Health (NIH), the Food and Drug Administration (FDA), the Centers for Disease Control (CDC), and others, a handful of major pharmaceutical companies got to work on a vaccine. In record time and with no prior testing, COVID-19 vaccines debuted in less than a year.

The experimental vaccines emerged amid intense skepticism that was swiftly censored by the media, which Big Pharma controls. Well-respected experts brave enough to question the narrative, like Geert Vanden Bossche, America's Frontline Doctors, and Dr. Pinkie Feinstein, share their concerns about the message of fear behind the virus, the safety of the vaccines, and their suspicions of a nefarious plan attached to the COVID-19 pandemic. At the same time, others took note of the unrivaled roll-out of the vaccines, funded by tax-payer dollars, and the undeniable and massive profit being made by Big Pharma as a result of the pandemic and vaccines.

This section takes a deep dive into the fast track of these vaccines and the massive profits lining Big Pharma's pockets for years to come. We also examine warnings from real experts - doctors, scientists, virologists, and others - courageous enough to question the safety and efficacy of the experimental vaccines while challenging the propaganda driving the agenda behind the pandemic.

VACCINES

Skepticism surrounding COVID-19 vaccines is a reality not reported by mainstream media. When the pandemic reared its ugly head less than a year before the 2020 Election, President Trump found himself in an unexpected quandary. Operation Warp Speed was immediately put into action to deliver vaccines in record time. As the nation endured riots and unrest leading up to the election, mainstream media continued its attack on President Trump and began silencing every report detailing an alternative treatment for COVID-19.

Despite Trump's well-intended efforts, government agencies were ultimately driving the timeline, and the much anticipated COVID-19 vaccines arrived after the election was over. This fact granted the Biden administration an enormously powerful weapon to reopen the economy. Taking full advantage of the leverage offered by the vaccines, the administration quickly shifted the narrative to be one of threats and fear. Those questioning Dr. Anthony Fauci, the safety of the vaccines, and the government overreach behind them were censored and labeled "conspiracy theorists." The message from the White House quickly went from a stated goal of vaccinating a portion of the population for herd immunity to "vaccinate everyone," with the concept of vaccine passports threatening the rights and freedom of American citizens.

From Dr. Byram Bridle's chilling warning of severe side effects of COVID-19 vaccines to the various groups of doctors, employees, and state governments banding together to petition and sue the federal government to stop vaccine mandates and other draconian measures, this section is a treasure trove of information you won't find anywhere else.

THE COVID-19 JAB IS NOT A VACCINE -

UncoverDC (8/16/2021)

on how to treat COVID-19 at home to prevent hospitalization and death. Studies support it, suggesting if you use drugs together in combination will reduce hospitalization and death by 85%." UncoverDC explains that the jabs currently available are very different from other scheduled vaccines. There is growing evidence proving that a healthy immune system bolstered by the correct and consistent use of nutraceuticals will help fight disease. Nutraceuticals and early treatment are, in most cases, sufficient to fight SARS CoV-2. Additionally, cases of injury and death from the jab continue to grow worldwide—including children. Children rarely are meaningfully affected by COVID-19.

Former FDA Commissioner Gottlieb and two professors—one from Stanford and one from Harvard—have basically declared the pandemic all but over.

VACCINE PASSPORTS

The current COVID-19 vaccines include novel technology never before used in humans and include no long-term safety studies. The pace of the development of the vaccines was unprecedented, and their authorization for immediate use was accelerated by the FDA to be administered under Emergency Use Authorization (EUA). These authorizations convey the assumption there are no existing effective treatments against SARS-CoV-2, but we are frequently learning that is not the case at all. Indeed, it is increasingly evident that alternative therapies are being censored along with those talking about them.

Meanwhile, as government leaders and agencies around the world continue to promote the fear-based narrative that vaccines are the only way out of the COVID-19 pandemic, conversations have shifted to include vaccine mandates for those hesitant to get the experimental jab. In addition to mandates, several nations have already implemented some form of a vaccine passport, leading to massive global protests that are either downplayed or ignored altogether by mainstream news.

If we as a society allow digital vaccine passports to become a reality, a foundation will be established for an unprecedented surveillance and control platform tied to the life of every human being, from health records to biometric ID, to an all-digital centralized banking system and a social credit system, all of which can be turned off to control you into a particular behavior. Essentially, individual freedom will no longer exist.

This section explains how contact tracing helped lay the groundwork for vaccine passports and gives an in-depth look at current vaccine passports in parts of the United States and other parts of the world. It also presents insight from professionals like Emmy-Award-winning producer John Spiropolous, who had videos taken down from YouTube documenting protests against vaccine passports. And finally, a chilling warning from author and journalist Naomi Wolf sums it up, offering that vaccine passports are not about vaccines; they are about data. Once implemented, it will signal the end of human liberty in the United States of America.

VACCINE PASSPORTS BECOME A REALITY IN SEVERAL COUNTRIES - UncoverDC (3/18/2021)

Ever since Israel became the first country to implement a domestic vaccine certification system last month, concerns have grown that similar systems will be replicated worldwide. The certification system being used in Israel clears those who have been vaccinated as safe to use certain facilities like gyms and restaurants or enable them to go to public events. China too has launched a virus passport, where a QR code-based digital health certificate shows a user's vaccination status and recent COVID test results.

COVID TREATMENT OPTIONS

From the minute President Trump mentioned Hydroxychloroquine (HCQ) in the spring of 2020, HCQ and any therapeutic to follow would be summarily dismissed as “dangerous” and/or unscientific. The introduction of Trump’s Operation Warp Speed which would rapidly develop vaccines to allegedly fight disease from SARS-CoV-2, was the domino that would topple any hope of considering preventative therapeutics for over a year.

Between the politics and the money invested in the campaign, therapeutics became a heavily censored topic—much to the detriment of the American public. It is estimated that of the 600,000 plus deaths, approximately 85% of them were unnecessary and could have been treated early with the proper therapeutics.

It is only recently that nutraceuticals and early use therapeutics like HCQ, Ivermectin, and Regeneron’s monoclonal antibodies are being discussed in the mainstream. Many like Dr. Zelenko, France’s Dr. Didier Raoult, Stanford’s Dr. Iannidis, America’s Frontline Doctors’ own Dr. Simone Gold, and renowned academic and practicing Cardiologist, Dr. Peter McCullough were telling the world that death from COVID, even in the elderly, was not an inevitability.

Here you will find UncoverDC reporting related to suggested immune-boosting nutraceuticals, viral load reducing therapies, and even environmental strategies to mitigate the spread of the disease. You will also see how censorship from social media platforms has ensured that Americans either had no access to, or awareness of life-saving information.

PART 1

MEDICAL MISINFORMATION, PART 1: HYDROXYCHLOROQUINE - UncoverDC (4/30/2020)

President Trump suggested hydroxychloroquine could be a game changer, and to his enemies, it was "game on" to see Trump's suggestion fail. As many doctors are saying in interviews and in publications everywhere, this is the first time they've seen a drug that has a political party.

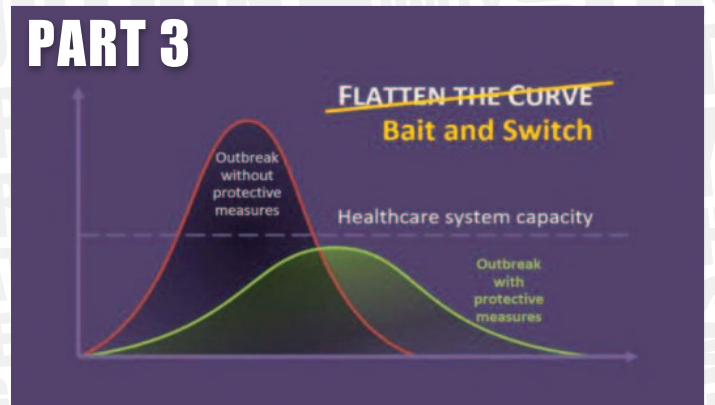

PART 2

MEDICAL MISINFORMATION PART 2: CURE IS DEADLIER THAN THE DISEASE -

UncoverDC (5/11/2020)

If Fauci and the Task Force had heeded Zelenko's advice, or the findings in a 2005 VirologyJournal paper on record with the National Institutes of Health, Chloroquine is a Potent Inhibitor of SARS Coronavirus Infection and Spread (yes, Fauci and the NIH were already aware of the efficacy of HCQ), they might have saved 90 percent of the people who died from COVID-19 related issues in this country.

PART 3

MEDICAL MISINFORMATION PART 3: THE BAIT AND SWITCH OF 'FLATTEN THE CURVE' -

UncoverDC (5/18/2020)

In other words, the mindset in America shifted from "Flatten the curve" to, "Nobody should get the virus at all." I'm hearing people freak out: "Oh my! My friend caught the virus!" Despite a 99.98% recovery rate overall and 100% recovery rate if someone is under the age of 50 (in Idaho), the media has made us terrified of catching COVID.

DOCTORS IN NEVADA SUE SISOLAK OVER BAN ON HYDROXYCHLOROQUINE -

UncoverDC (4/25/2020)

On March 23, 2020, Governor Steve Sisolak of Nevada, in conjunction with the Nevada State Board of Pharmacy, signed a regulation that restricted medical doctors in the state from prescribing two medicines many healthcare professionals worldwide have turned to in their fight against COVID-19; hydroxychloroquine, and chloroquine. Now, Dr. Bruce Fong and the Nevada Osteopathic Medical Association are suing Governor Sisolak, the State of Nevada, and the Nevada State Pharmacy Board for the right to make treatment decisions on behalf of their patients, some of whom, the doctors contend, could die without access to a drug that has shown the potential to save lives.

THE COVID-19 JAB IS NOT A VACCINE -

UncoverDC (8/16/2021)

UncoverDC interviewed Dr. Peter McCullough who advocates early treatment for COVID-19. "The first two breakthrough peer-reviewed protocols

on how to treat COVID-19 at home to prevent hospitalization and death. Studies support it, suggesting if you use drugs together in combination will reduce hospitalization and death by 85%." UncoverDC explains that the jabs currently available are very different from other scheduled vaccines. There is growing evidence proving that a healthy immune system bolstered by the correct and consistent use of nutraceuticals will help fight disease. Nutraceuticals and early treatment are, in most cases, sufficient to fight SARS CoV-2. Additionally, cases of injury and death from the jab continue to grow worldwide—including children. Children rarely are meaningfully affected by COVID-19.

AMERICA IS BEATING THIS VIRUS-AND PRIVATE INDUSTRY IS PLAYING A BIG ROLE-

THE TARGETING OF DR. STELLA IMMANUEL -

UncoverDC (6/30/2020)
(July 30, 2020)

Hello, I'm Dr. Stella Immanuel. I'm a primary care physician in Houston, Texas. I actually went to medical school in West Africa, Nigeria, where I took care of malaria patients, treated them with hydroxychloroquine and stuff like that. So, I'm actually used to

these medications. I'm here because I have personally treated over 350 patients with COVID. Patients that have diabetes, patients that have high blood pressure, patients that have asthma, old people ... I think my oldest patient is 92 ... 87-year old's. And the result has been the same. I put them on hydroxychloroquine, I put them on zinc, I put them on Zithromax, and they're all well. For the past few months, after taking care of over 350 patients, we've not lost one."

EFFECTIVE AGAINST COVID-19: FDA WANTS TO BAN DIETARY SUPPLEMENT NAC - UncoverDC (5/17/2021)

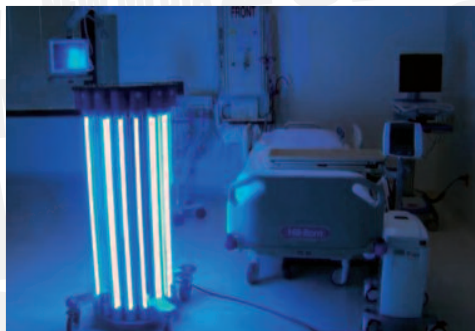

In the fight against COVID-19, the supplement has been shown to have excellent potential as an effective treatment. With that in mind, though not the final word, the FDA recently reversed its longstanding position on NAC, postulating that it is a “medication,” therefore, it can not legally be marketed as a dietary supplement and should be removed from public sale.

FOLLOW THE MONEY: HYDROXYCHLOROQUINE VS. THE “VACCINE” -

UncoverDC (2/16/2021)

Despite the drug’s 65-year safe track record, despite it being on the World Health Organization’s list of essential medicines for years, despite it being sold over the counter in many countries, and despite the fact it’s prescribed more often than penicillin, there’s just too much money to be made with an unproven “vaccine.”
